

Java

First Java Programs

DIRECTIONS: Create 4 different java programs with the following specifications.

1) Create a program that prints out your initials in the following format:

```

      AA      BBBB BBBB BBBB      CCCCCCCCC
      AAA     BBBB BBBB BBBB     CCCCCCCCCCCCC
    AA  AA   BB           BB      CCC           CC
    AA  AA   BB           BB      CC
    AA  AA   BB           BB      CC
    AA  AA   BBBB BBBB BBBB      CC
    AAAAAAAA BBBB BBBB BBBB      CC
    AAAAAAAA BB           BB      CC
    AA        BB           BB      CC
    AA        BB           BB      CCC           CC
    AA        BBBB BBBB BBBB      CCCCCCCCCCCCC
    AA        BBBB BBBB BBBB      CCCCCCCCC

```

2) Create a program that prints out your name, favorite class, birthday and something else interesting on different lines only using `System.out.print`

3) Create a program that prints out a diamond:

```

      *
     **
    ***
   ****
  *****
 *****
  *****
   ****
    ***
     **
      *

```

and some other shape.

4) Create a program that prints out your first, middle and last name three ways:

- All on one line
- On three lines
- In a box
